Garden Trust®
Flower, Vegetable & Bulb Fertilizer

Garden Trust's® blend of water soluble and water insoluble (WIN) nitrogen sources provide nutrients that feed your plants immediately and over the course of the growing season.

Garden Trust's® combination of primary, secondary and micro nutrients provide a full range of essential nutritional elements that help flowers, vegetables and bulbs to produce vigorous growth, radiant color and generous crop yields.

Application Rate:

Flowers and Bulbs: 1-½ pounds per 100 sqft. area.

Vegetables: 1 pound per 100 sqft. area.
 (An 8 oz. cup holds approximately ½ pound of Fertilizer)

Directions for Use

1. Loosen soil and prepare the planting area.
2. Sprinkle **Garden Trust®** evenly over the area to be planted or plants can be top-dressed after planting.
3. Plant Bulbs, Seeds or Plants.
*You do not have to work **Garden Trust®** into the soil.
 Never place **Garden Trust®** directly into the planting hole.*
4. Water plants as needed.

One application will last all season.
